****THIS FILM IS FOR AUDIENCES 18 AND OLDER ONLY****

RAW! UNCUT! VIDEO! is the unabridged, unflinching, explicit, and honest story of gay porn studio, Palm Drive Video, and its creators Jack Fritscher and Mark Hemry. Directors Ryan A. White and Alex Clausen document the rise and fall of this grassroots establishment and its long lasting, far reaching influence on the porn scene and our erotic imaginations. A devoted couple, they helped define amateur gay porn as we know it today, while also revolutionarily promoting kinky sex as a form of safe sex during the AIDS epidemic when they fled San Francisco to Sonoma County and in doing so opened doors to new sexual ideas even amidst a devastating health crisis.

Drawing connections to sex-positive trends in the porn industry and the freedom in fantasy play, this film is as smart as it is sensual. This is a testament to the inextricable link in gay culture to gay images; porn notwithstanding. This is a no-holds-barred look at all forms of queer kinks, the history of gay pornography, and the love two men had for capturing it all on video.
